Network Operations Support

May 28, 2003

Bentleyville Telephone Co
608 S Main Street
Bentleyville, PA 15314

Verizon Wireless
Interconnection/Numbering/Mandates
2785 Mitchell Drive MS 7-1
Walnut Creek, CA 94598

Attn: Daniel Hughes,

Consistent with the rules of the Federal Communications Commission ("FCC"), on November 24, 2003, Verizon Wireless will begin competitive porting by offering customers local number portability ("LNP").²⁵ The FCC sought to simplify the task of identifying the switches in each MSA in which number portability is deployed and to facilitate competitive entry.²⁶ The FCC's rules require local exchange carriers to make available, upon request by any interested party, a list of their switches for which provisioning of number portability has been requested (and therefore provided) and a list of their switches for which provisioning of number portability has not been requested.²⁷ Verizon Wireless requires only a list of switches and NPA-NXX codes for which provisioning of LNP has not been requested.

Verizon Wireless has simplified this request by attaching a form containing a list of switches and codes for your review. This list was derived by using the LERG and comparing it to Verizon Wireless's licensed service areas. The list identifies the switch CLLI and NPA-NXX codes that Verizon Wireless believes are not yet LNP capable. Please review and update the attached form, making any necessary changes or additions to the list regarding switches and codes that have not been marked portable. Please indicate the date by which the switch and codes will be LNP capable.²⁸ Any comments can be made in the column provided on the form.

Verizon Wireless requests that you review, update and return the attached form to the undersigned contact within 10 days of receipt. Please call the undersigned with any questions or concerns.

A handwritten signature in cursive script, appearing to read "Linda Godfrey".

Enclosures

²⁵ See 47 C.F.R. § 52.31.

²⁶ Local Number Portability, *First Memorandum Opinion and order on Reconsideration*, 12 FCC Rcd. 7236, ¶¶59-66 (1997).

²⁷ *Id.* at ¶64; 47 C.F.R. § 52.23(b)(2)(iii).

²⁸ The timeframes for conversion to LNP of any additional switches are governed by the FCC's rules and range from 30 days to 180 days, depending upon the status of the switches (*i.e.*, equipped remote, hardware capable, capable switches requiring hardware, and non-capable). 47 C.F.R. § 52.23 (b)(2)(iv)(A-D).

Bonafide Request Form (BFR)

Purpose:

The purpose of this letter is to request the deployment of long-term Local Number Portability as defined by the FCC. Specifically, this form requests that ALL codes serving the Metropolitan Statistical Areas be opened for portability in the LERG and the NPAC and ALL switches serving these areas are LNP capable.

Note: MSAs refers to the identified U.S. Census Bureau MSAs for 2000. These may differ from the MSAs as separately defined by the wireless or wireline industries. In those instances where no MSA has been identified, please reference Rate Center to ensure switches and NPA-NXXs serving those areas are opened for porting.

May 16, 2003

To Whom It May Concern:

Enclosed is the Bonafide Request Form (BFR) as required by the FCC mandate (CC Docket 95-116) to request deployment of long term Local Number Portability. CMRS providers are required to provide LNP by November 24, 2003. This BFR is being sent in anticipation of that date. Please note the effective date requested reflects this requirement.

Please feel free to contact me at the numbers and email address provided above. Alternatively, you may contact Jeff Adrian at phone number (407) 622-4170 or at email address: jadria01@sprintspectrum.com if you need assistance.

Sincerely,

Fawn Romig
